### 1. Executive Summary

Indépendance Coin (IND) is a Haitian-born cryptocurrency designed to unite Haitians worldwide through a secure, transparent, and community-driven financial ecosystem. Our mission is to provide low-cost digital transactions, reinvest into Haiti's infrastructure, and create economic opportunities for all Haitians — both at home and abroad. Working in full partnership with VoyePay, our integrated payment platform, we ensure a seamless link between cryptocurrency and real-world usage. A portion of VoyePay's transaction fees will be dedicated directly to rebuilding Haiti's infrastructure.

### 2. The Problem

Haiti's economy faces deep challenges:

- High remittance costs: Up to 15% of funds lost in transfer fees.
- Limited banking access: Many Haitians lack secure banking options.
- Lack of transparency: Development funds are often mismanaged or lost.
- Underinvestment: Minimal reinvestment into schools, jobs, healthcare, roads, and agriculture.

### 3. Our Solution

Indépendance Coin, working in sync with VoyePay, addresses these issues through:

- Low-cost transfers: Peer-to-peer transactions with minimal fees.
- Direct reinvestment: Funds allocated to Haiti's development in a transparent, verifiable way.
- Merchant acceptance: Partnerships with Haitian businesses and full VoyePay integration.
- Revenue sharing for rebuilding: A portion of all VoyePay transaction fees goes to the Rebuilding Fund.
- Global access: Available to anyone with a smartphone and internet connection.

### 4. Technology Overview

- Blockchain: Layer-1 Proof-of-Work (PoW) with block reward halving every 4 years.
- Integration: VoyerPay for instant fiat conversion to Haitian Gourde (HTG) and USD.
- Security: Open-source code, public fund wallets, independent audits, and multi-signature treasury wallets.
- Future scaling: Transition to Proof-of-Stake or Layer-2 solutions for faster transactions.

## 5. Tokenomics

Total Supply: 200B IND

- Personal Reserve: 20B IND (10%)
- Premine Reserve: 20B IND (10%) — strategic partnerships, liquidity, operations.
- Presale Allocation: 20B IND (10%) — for marketing and setup of VoyerPay locations nationwide.
- Mining Rewards: 110B IND (55%) — distributed to miners over time.
- Rebuilding Fund: 20B IND (10%) — schools, jobs, healthcare, roads, and food security.
- Development Fund: 10B IND (5%) — upgrades, infrastructure, and tech improvements.

Deflationary Mechanism: 10% of transaction fees are burned to reduce supply.

## 6. Presale Details

- Tokens Available: 20B IND @ \$0.001
- Target Raise: \$20M
- Purpose: Marketing campaign and nationwide setup of VoyerPay locations.
- Purchase Limits: \$100 minimum, \$50,000 maximum.
- Accepted Payments: BTC, ETH, USDT, and fiat via VoyerPay.

## 7. Our 1-2-3-4-5-6-7 Commitment to Haiti

The number 1234567 represents our seven pillars of action — a clear roadmap to rebuild Haiti through the combined power of Indépendance Coin and VoyerPay.

- 1) One Currency — A unified digital asset for Haitians at home and abroad.
- 2) Two Platforms — IND + VoyerPay working in sync for seamless payments.
- 3) Three Core Values — Transparency, Accessibility, and Community Ownership.
- 4) Four Development Goals — Education, Jobs, Healthcare, Infrastructure.
- 5) Five-Year Vision — Establish IND as Haiti's most trusted payment network.
- 6) Six Revenue Streams — Mining, Staking, Merchant Fees, Remittance, Partnerships, VoyerPay Revenue.

7) Seven Generations Impact — Build a foundation strong enough to benefit Haitians for generations to come.

This 1234567 framework is more than a slogan — it's our commitment to measurable, lasting change. Every IND transaction and every VoyePay payment is a step toward achieving these seven pillars.

## **8. Social Impact Plan (Long-Term Mission)**

Indépendance Coin and VoyePay are aligned in their commitment to rebuilding Haiti. The Rebuilding Fund will be invested in:

- Education: Building schools and providing scholarships.
- Jobs: Supporting small businesses and training programs.
- Healthcare: Funding community clinics and mobile health units.
- Infrastructure: Repairing roads, expanding clean water access.
- Food Security: Supporting farmers and agricultural co-operatives.

Portion of VoyePay fees will be allocated directly to these projects, ensuring that everyday transactions actively contribute to national growth.

## **9. Roadmap**

Phase 1 (2025 Q1-Q2):

- Launch website and whitepaper
- Conduct presale
- Integrate VoyePay

Phase 2 (2025 Q3-Q4):

- Start mining operations
- Launch Rebuilding Fund
- Onboard merchants for IND acceptance

Phase 3 (2026):

- Implement DAO governance model
- Expand VoyePay network nationwide
- Launch Layer-2 scaling for faster payments

## **10. Governance**

- DAO Model: Community-driven governance, 1 IND = 1 vote.
- Proposal Process: Any holder with 50,000+ IND can submit proposals.
- Voting: Quarterly on-chain votes with transparent results.
- Treasury: Managed via multi-sig wallets with community oversight.

## **11. Security & Transparency**

- Audits: Independent smart contract and blockchain audits.
- Public Wallets: All development and Rebuilding Fund wallets publicly accessible.
- Bug Bounty Program: Rewards for identifying and fixing vulnerabilities.

## **12. Risk Disclosure**

- Market Volatility: Prices may fluctuate.
- Regulatory Risk: Laws may change affecting operations.
- Adoption Risk: Depends on community and merchant uptake.

## **13. Call to Action**

Haiti won its independence in 1804. Today, with Indépendance Coin and VoyePay, we aim for financial independence. Every transaction helps rebuild our nation's future — from roads to schools, clinics to clean water projects.
